

mix magazine

Mix, the colour, trend and design magazine for professionals.

MIX magazine brings you new trend updates in design, colour, materials, products and architecture. Its inspirational imagery provides you with a complete overview on new trends and innovative projects, making this publication a working tool for those who need accurate trend information.

Mix uses the NCS - Natural Color System® in all of its colour trend. Making it easier for you to find and apply them. Mix is a leading publication in the industry where you can take fresh and innovative ideas.

Mix magazine is the colour, design and trend magazine that brings you accurate information about colour trends, materials and products in quarterly instalments.
