

THE LEADER IN INTERNATIONAL DESIGN & ARCHITECTURE TREND FORECASTING: MIX

The importance of accurate trend information, particularly where colour is concerned, cannot be understated. More important is how quickly and accurately you, the user, can access these trends.

Mix is the colour, trend and design magazine for professionals. Published four times a year (in March, June, August and December), it brings you new trend updates in design, colour, materials, products and architecture. Its inspirational imagery provides you with a complete overview on new trends and innovative projects, making this publication a working tool for those who need accurate trend information.

Mix uses the NCS - Natural Colour System® in all of its colour trends, making it easier for you to find and apply them. Mix is a leading publication in the industry where you can take fresh and innovative ideas and easily bring the colours into reality.
